Craftsman Made

The work shown in the pages that follow is made by the finest craftsmen in the world in the best equipped shop ever built for this work. The shop is located in a little rural town in Connecticut. Nothing has been omitted to give the craftsmen perfect working conditions.

Great works of art such as the Baldacchino shown on the next page, have been executed by our firm. In emergencies we are able to perform what sometimes appears to be the impossible. An outstanding example is the solid bronze, gold-plated casket for the great Mother Cabrini which was built in six days of unbelievable effort in our studios. We not only had to make the full-sized details and procure crystal glass, but also had to build special equipment such as an enormous gold-plating tank and extra large foundry flasks before the work could be completed. Yet it was delivered exactly on time, and is truly a magnificent piece of art. It is our great regret that we were unable to photograph it, but there was not time for this.

Our staff of designers, engineers and craftsmen are at your command. We are ready, willing and able to cooperate.

YOUR DEALER

Your dealer, who gave you this catalog is our representative. We do not solicit the clergy direct. However, your dealer may give you a card or letter of introduction to our wonderful showrooms in New York. We shall be very glad to have you visit us at any time.

We respectfully ask that your orders be placed through your dealer for he is our representative and will see that we get the the correct technical and professional information so that we may proceed properly.

A Wrought Iron Baldacchino in The Queen of the Miraculous Medal Chapel at Princeton, New Jersey.

This piece of work, probably the finest ever done, is our particular pride. The Vincentian Fathers would welcome your visit, and we know you would be thrilled with the great metalwork we have done there.

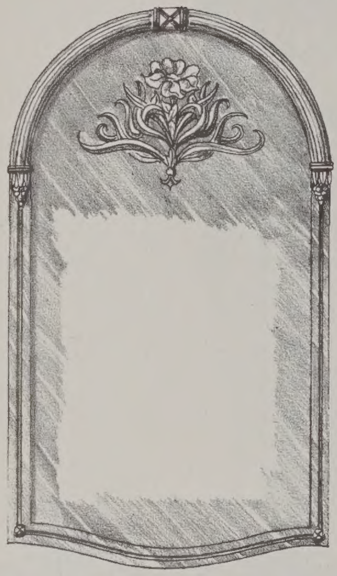
BRONZE TABLETS

BRONZE TABLETS EXERT STRONG, FAVORABLE INFLUENCE IN CHURCH MATTERS. THE GLOWING, PERPETUAL BRONZE GIVES LOVELY EXPRESSION OF SENTIMENT WHICH GRATIFIES AND STIMULATES PATRONS.

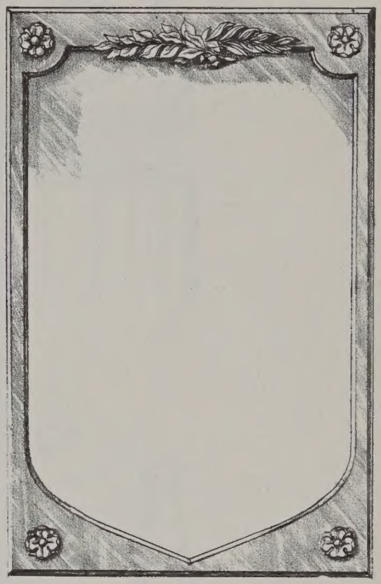
IN THESE PAGES WE SUBMIT SUGGESTIONS FOR DESIGNS. WE OFFER TO PREPARE PLANS, FOR YOUR PARTICULAR PURPOSE WITHOUT CHARGE OR OBLIGATION.



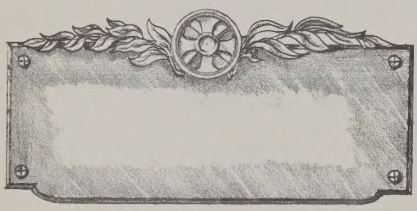
DESIGN NO. 6396

TO THE LEFT AND RIGHT WE SHOW THE EXTREME FLEXIBILITY OF PLAQUE DESIGN.

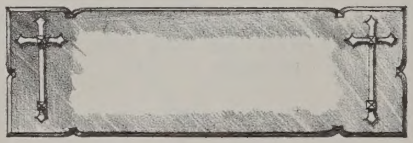
AT THE START, MEASUREMENTS AND INSCRIPTIONS SHOULD BE DETERMINED AND TRANSMITTED TO US.



DESIGN NO. 6405



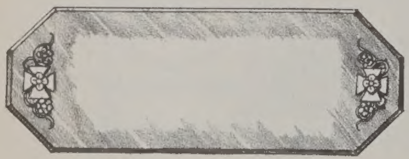
DESIGN NO. 6397



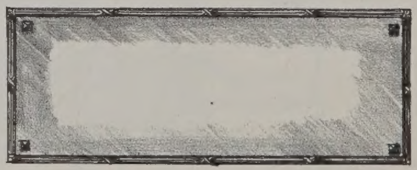
DESIGN NO. 6403

THESE FOUR SMALLER DESIGNS CONVEY A FEW ASPECTS OF PLEASING MEMORIALS THAT ARE MODEST IN COST.

A NAME, THE DATES AND ABOUT SIX LINES OF INSCRIPTION FORM THE BEST ARRANGEMENT.



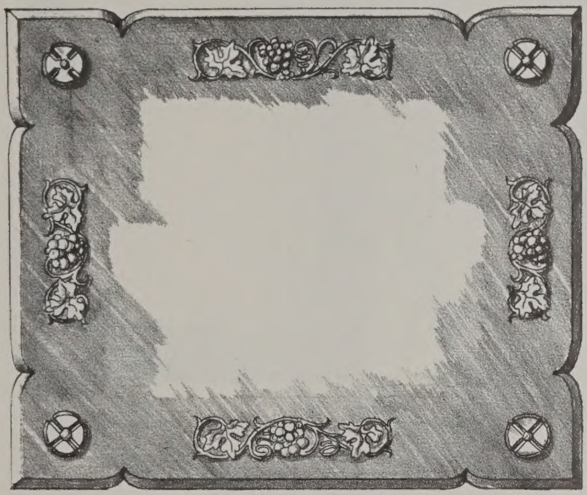
DESIGN NO. 6391



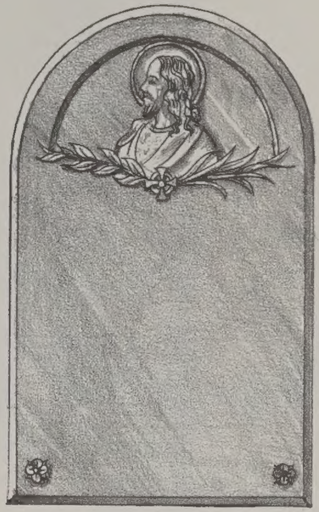
DESIGN NO. 6402

BRONZE TABLETS

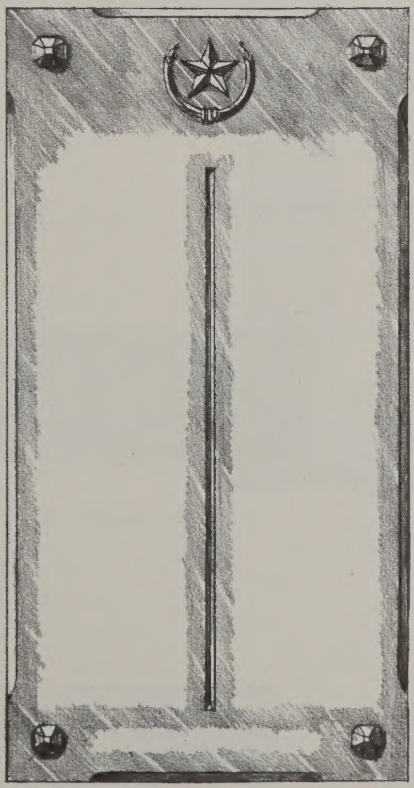
THE FOUR DESIGNS ON THIS PAGE SERVE CASES IN WHICH THE WHOLE CONGREGATION JOINS. COMMEMORATING THE ERECTION OF A BUILDING, A TRIBUTE TO A PRIEST, OR THE LISTING OF VARIOUS SOCIETY MEMBERS IS THE MAIN USE OF THESE LARGER PLAQUES.
THE MENTION OF NAMES IS EVER PRODUCTIVE OF GREATER FINANCIAL SPONSORSHIP BY THE PEOPLE SO HONORED.



DESIGN NO. 6389



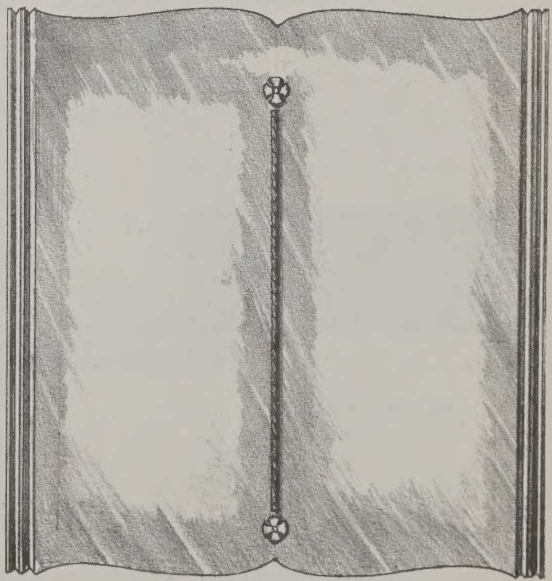
DESIGN NO. 6390



DESIGN NO. 6398

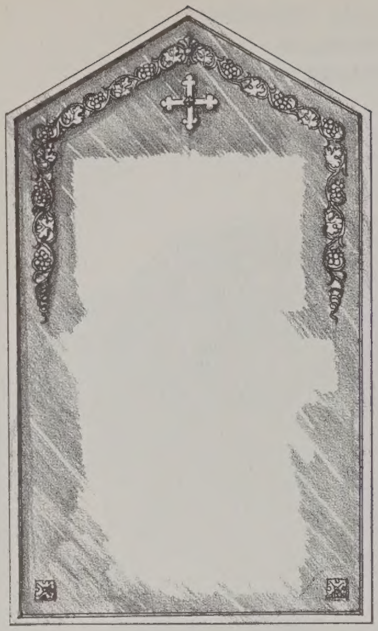
HONOR ROLLS

SPECIAL MENTION IS GIVEN TO HONOR ROLLS FOR THEY CREATE IMMEDIATE AND EFFECTIVE INTEREST IN UNDERTAKINGS SUCH AS SECURING A NEW ORGAN OR A BUILDING RENOVATION PROJECT.



DESIGN NO. 6393

BRONZE TABLETS



THE DESIGNS TO THE LEFT AND RIGHT ARE MODEST IN COST. 18" X 24" ARE PLEASING MEASUREMENTS AND THEY ALLOW SPACE FOR MOST AVERAGE INSCRIPTIONS.

IN ALL CASES WE SHALL GLADLY GIVE YOU PRE-VIEW DRAWINGS WITHOUT CHARGE, WHEN YOU EXPLAIN THE DIMENSION AND INSCRIPTION.

Concerning the Tabernacle

Liturgy and Canon Law exact certain requirements in the Tabernacle. The following information is taken from "The Code of Canon Law" and "The Sacred Congregation of Rites," and includes what we, as craftsmen, think, concerns the Tabernacle. Liturgically, the Tabernacle is considered only as the abode of the Blessed Sacrament. And with due reverence we remind you that it is also a safe.

Being a safe the Tabernacle should be of strong, simple construction. Complicated mechanical devices for operating doors, etc. should be avoided. This has caused much trouble and embarrassment during Mass. Nothing is gained by these complicated mechanisms, for it seems that the main idea is to design a Tabernacle the door to which, if opening outward, takes but little room in its arc of travel. This of course is easily answered by the cylindrical Tabernacle which has a revolving door and does not project at any time. However, many beautiful Tabernacles, octagonal and square in shape have been made, and by using the Parisian hinge enough advantage is gained to make the projection of the doors negligible. The Tabernacle on the opposite page is an excellent example of this.

The Liturgical laws require that the Tabernacle shall be beautiful, decorative, (as prescribed by Liturgy using symbolism, etc.) and shall be so constructed as to be completely enclosed; and above all, to be free standing (free from all other things) touching nothing, sides, front or rear, and shall not be integral (if made of marble or wood) with other parts of the altar. The words "free standing," we believe, express it clearly.

Only one permanent Tabernacle is permitted.

It should be (again as a safe) securely fastened in the center of the main altar. We furnish a steel bolt for this purpose.

Side altar Tabernacles are permitted for reservation of the Blessed Sacrament on special occasions.

EXTERIOR VEIL (Conopaeum)

Any textile (rayon omitted) may be used but it should not have a lining. It must cover the Tabernacle on all sides. It may be decorative with symbolism, handwork, etc. The color may be white at all times or it may be the color of the day. The "Sacred Congregation" is in favor of the latter as it corresponds to the Roman practice. A black veil is never allowed. At Requiem Mass the veil is to be purple. Therefore, regardless of what material the Tabernacle is made from, it must be completely enclosed in the aforedescribed veil.

INTERIOR VEIL AND CONSTRUCTION

Again as a safe, we have on the inside of our Tabernacles, first of all, asbestos for protection against fire; secondly, hardened steel; third, the finest aromatic cedar; fourth, a white silk lining which again completely encloses the Sacred Contents (Gold or silver may also be used.) The aromatic cedar, being filled with a fine natural oil, keeps out dampness which causes Hosts to decay.

DESIGN OF TABERNACLE

The Tabernacle can have any shape or form. However it shall not serve as a support for an Exposition Throne or any purpose other than the use as a Tabernacle. Using a flat roof as a support for a Crucifix is not approved but is merely tolerated. The Crucifix should be directly behind the Tabernacle on a special stand.

Your Tabernacle, should be designed to fit the church and the altar where it will be used. We shall be very happy to submit further suggestions upon receipt of information such as the size of the altar, style of decoration used in your church.

Sculpture and Statuary

WE are most fortunate in having as our associates on many of the fine jobs we do, the leading sculptors of the country. In the past ten years they have become increasingly interested in ecclesiastical sculpture, and in an effort to interest the clergy in having their statuary first executed in clay by a living sculptor, they have made exceptionally interesting prices. The pieces can be executed in wood, stone, cast stone, bronze, lead, or any other material, once the original model is made. The price for this work is surprisingly low and compares favorably on larger pieces with prices for run-of-the-mill work in this respect.

The sculptor submits an accurate sketch of the figure for position and general scheme, and then a photograph of the clay model for the detail, which, of course, can be altered in any way the client suggests.

We solicit your inquiry on sculpture and statuary.

Craftsmen's Galleries

215 EAST 42nd STREET

NEW YORK CITY

◆

A cordial invitation is extended to all our clients and their friends to visit The Craftsmen's Galleries and inspect the interesting examples of hand craftsmanship exhibited there.

Draperies and Textiles

It is our good fortune to have a qualified expert on our staff who can advise on and execute the special weaving, making and hanging of ecclesiastical textiles. It will be a pleasure to consult with you.

Special Work

KENNETH LYNCH and his staff of six designer-assistants are ready to help you plan your new decorative pieces.

Our work as armorers and craftsmen in the finer arts gives us a background of experience which is the envy of our competitors.

We are called upon by museums and similar institutions to duplicate and repair their fine works of art and our highly skilled craftsmen are able to do this work better than any other group in business today.

Kenneth Lynch invites you to visit his workshops at Wilton, Connecticut, and the beautiful showrooms at 215 East 42nd Street, New York City.

If you wish to bring to our shop a patron for a special memorial piece, we shall be very happy to give you our complete cooperation.

No job is too large and no job is too small.

Liturgical
and
Rubrical Information

WE have an exceptionally fine library on the use of "church appointments." We shall be pleased to cooperate and try to give you what we think is the correct answer from the information we have available. If we can help you do not hesitate to call on us.
